The University of Illinois is an equal opportunity/affirmative action institution.

UOPA 30M 1/04

The University of Illinois

The University of Illinois, chartered in 1867, welcomed its first class in 1868. The U of I has been the catalyst for many advances in science, technology and the arts. True to its core missions of teaching, research and service, the University works around the clock to improve the health, living conditions, learning environments, safety and security for all citizens of Illinois and beyond.

A few highlights:

- 19 Nobel prizes have been won by alumni and faculty, two this year.
- Urbana's library is the largest public university library in the world and just added its 10-millionth volume.
- Chicago is one of four level-one research universities in the state. Illinois has four major research universities—Chicago and Urbana-Champaign are two of them.
- All UIS teacher education program graduates have passed the national certification exam for the last three years.

The University is on the go. To accommodate demand for more on-campus housing, UIC opened a new student residence, Thomas Beckham Hall, for 447 students as part of the South Campus expansion. The South Farms at the Urbana-Champaign campus broke ground for the construction of a new beef and sheep complex in August 2003. It marks the first of a six-phase, multi-year plan to modernize the South Farms. And Springfield will offer two additional online degree programs this year, bringing the total to four bachelor's degree programs, four undergraduate minors and two graduate degree programs.
