

## **What's Happening Now –June 2014**

The START myResearch project team is excited to announce that the myResearch Portal pilot is now live! To access the pilot, visit <https://myresearch.uillinois.edu>. Key features include:

- Principal Investigators (PIs) can view all pending proposals, pending negotiations, active awards, closed awards and non-funded proposals
- Access to summary financial data using standard grant formats for active awards
- Current and pending support download
- Business managers can access all grants associated with PIs in their department

In addition, the team is currently working on a web-based Conflict of Interest (COI) reporting tool. Project members are in the process of replacing the paper-based Report of Non-University Activities (RNUA) with a web-based module targeted to release in fall 2014.

For more information about project details or future releases, visit the START myResearch website at [http://web.uillinois.edu/start\\_myresearch](http://web.uillinois.edu/start_myresearch). If you have additional questions, contact Project Director Youngwook Song at [ywsong@uillinois.edu](mailto:ywsong@uillinois.edu) or Project Coordinator AJ Lavender at [ajl@uillinois.edu](mailto:ajl@uillinois.edu).
