EXTRAORDINARY IMPACT TAKES EXTRAORDINARY PEOPLE.

THANK YOU.

When great minds come together, there’s no end to the difference we can make. But it takes all of us. Because of our students, faculty, staff, healthcare workers, donors and fellow Illinoisans, the University of Illinois System is creating real impact across the state and nation. From pioneering fast saliva-based COVID-19 testing, to leading clinical trials for vaccines and treatments, to innovating online education and support networks, it’s clear that when we come together, we can always find a way forward. And for that, we thank you for making us altogether extraordinary.
