The University of Illinois Urbana-Champaign (UIUC) creates a significant positive impact on the business community and generates a return on investment to its major stakeholder groups—students, taxpayers, and society. Using a two-pronged approach that involves an economic impact analysis and an investment analysis, this study calculates the benefits received by each of these groups. Results of the analysis reflect fiscal (FY21) (July 1, 2020 through June 30, 2021).

**ECONOMIC IMPACT ANALYSIS**

In FY21, UIUC added **$8.7 billion** in income to the Illinois economy, a value approximately equal to **1.0%** of the state’s total gross state product (GSP). Expressed in terms of jobs, UIUC’s impact supported **79,769 jobs**. For perspective, the activities of UIUC and its students support **one out of every 94 jobs** in Illinois.

**OPERATIONS SPENDING IMPACT**

- UIUC employed 15,144 full-time and part-time faculty and staff (excluding research employees). Payroll amounted to $1.8 billion (excluding payroll from research employees), much of which was spent in the state for groceries, mortgage and rent payments, dining out, and other household expenses. The university spent another $447.3 million on day-to-day expenses related to facilities, supplies, and professional services (excluding research expenditures).
The net impact of the university’s operations spending added $2.1 billion in income to the state economy in FY21.

RESEARCH SPENDING IMPACT

Research activities at UIUC impact the state economy by employing people and making purchases for equipment, supplies, and services. They also facilitate new knowledge creation in Illinois through inventions, patent applications, and licenses. In FY21, UIUC spent $339.5 million on payroll and $391.8 million on other expenses to support research activities.

UIUC’s research spending generated $844.2 million in added income for the Illinois economy in FY21.

CONSTRUCTION SPENDING IMPACT

UIUC invests in construction each year to maintain its facilities, create additional capacities, and meet its growing educational demands, generating a short-term infusion of spending and jobs in the state economy.

The net impact of UIUC’s construction spending in FY21 was $95.6 million in added income for Illinois.

START-UP AND SPIN-OFF COMPANY IMPACT

UIUC creates an exceptional environment that fosters innovation and entrepreneurship, evidenced by the number of start-up and spin-off companies created as a result of the university.

In FY21, UIUC’s start-up and spin-off companies generated $500.3 million in added income for the Illinois economy.

VISITOR SPENDING IMPACT

Typically, UIUC hosts thousands of out-of-state visitors for on-campus events. UIUC, its partners, and affiliations bring national and internationally renowned speakers and entertainers to the state. In addition, UIUC attracts visitors for commencement, cultural, and sporting events. It is important to remind the reader of the restrictions imposed by the COVID-19 pandemic and its strong influence on the number of visitors during FY21.

Visitor spending added approximately $3.4 million in income to the Illinois economy.

STUDENT SPENDING IMPACT

Around 44% of students attending UIUC originated from outside the state. Some of these students relocated to Illinois. In addition, some in-state students, referred to as retained students, would have left Illinois for other educational opportunities if not for UIUC. These relocated and retained students spent money on groceries, mortgage and rent payments, and other living expenses at state businesses.

The expenditures of relocated and retained students in FY21 added $255.7 million in income to the Illinois economy.

ALUMNI IMPACT

• Over the years, students have studied at UIUC and entered or re-entered the workforce with newly-acquired knowledge and skills. Today, thousands of these former students are employed in Illinois.
• The net impact of UIUC’s former students currently employed in the state workforce amounted to $4.9 billion in added income in FY21.

Note: Added income should not be confused with personal income or sales. It is important to bear in mind that much of this sales revenue leaves the state economy through intermediary transactions and costs, whereas income remains in the state and is synonymous to value added or gross state product.

INVESTMENT ANALYSIS

STUDENT PERSPECTIVE

• UIUC’s FY21 students paid a present value of $870.8 million to cover the cost of tuition, fees, supplies, and interest on student loans. They also forwent $741.2 million in money that they would have earned had they been working instead of attending college.
• In return for their investment, students will receive a cumulative present value of $7.7 billion in increased earnings over their working lives. This translates to a return of $4.80 in higher future earnings for every dollar students invest in their education. Students’ average annual rate of return is 14.9%.

TAXPAYER PERSPECTIVE

• Taxpayers provided UIUC with $609.4 million of funding in FY21. In return, they will benefit from added tax revenue, stemming from students’ higher lifetime earnings and increased business output, amounting to $2.2 billion. A reduced demand for government-funded services in Illinois will add another $320.6 million in benefits to taxpayers.
• For every dollar of public money invested in UIUC, taxpayers will receive $4.10 in return, over the course of students’ working lives.

SOCIAL PERSPECTIVE

• In FY21, Illinois invested $4 billion to support UIUC. In turn, the Illinois economy will grow by $21.7 billion, over the course of students’ working lives. Society will also benefit from $910.2 million of public and private sector savings.
• For every dollar invested in UIUC in FY21, people in Illinois will receive $5.70 in return, for as long as UIUC’s FY21 students remain active in the state workforce.
